

Thank you for visiting our home on Oxbow Island Estates. My husband and I designed this custom home for our family on this gorgeous lot and we've loved living here. The craftsmanship, upgrades, and finishes make it stand out in the neighborhood. The location of this home is the cherry on top. The quietness, mature trees, and living on the water makes this home the total package.

Living on Oxbow Island Estates has been amazing. Everyone is welcoming, friendly, and ready to help when needed. The island has low traffic so walking, biking, or driving around in your golf cart are not a safety concern.

We love Weston Lakes and all its amenities. There's so many neighborhood activities for seniors, families, and little kids. Plus the added security gives you peace of mind.

Now that we are empty nesters we've decided to sell the home and downsize and move onto the next phase of our lives. We hope the next family loves it as much, best of luck on the home search.
