

*In March 2014 we moved to the area to be closer to our family in Kingwood. Our daughter lives in Woodstream and our son in Fosters Mill. We are currently downsizing and getting ready to retire into a smaller home, still in the Kingwood area. We will however, miss our wonderful neighbors, most of whom have lived here for many years. We love the fact that this area is so quiet on any given day...so relaxing and peaceful!*

*We love the cozy living room where we curl up to read the paper, watch the birds, watch TV, have family game night etc. We love the island in the kitchen because that is where the grandchildren learned to make pancakes. During the summer months we throw our annual Fourth of July party for the family on the patio. Christmas time is we decorate the stairs, entrance, the whole house outside and yard.*

*We love the Riverchase pool and playground conveniently across the street. Our favorite past time is watching the birds in the backyard.*

*We are just a block away from the Shadows Forest Elementary school and only a couple of blocks from Riverwood Middle School. We love the hike and bike trails and the convenience of the restaurants and grocery stores.*

*The original owners built the house in 1997 and then moved in 2013, to be closer to their grandchildren in another part of Houston. In 2013 it was sold to a young couple but they were transferred soon after moving in to live in another state. We purchased the home in March 2014.*

*You are most welcome to view original house plans!*

*\*The house plans show that this home was built as a 5 bedroom, but the previous owners decided not to heat and cool that portion, but it would be an easy transformation to convert, since it has the walls and flooring in place already.*

*This property at one time was the Kingwood Garden Clubs host year after year for its annuals, especially the 127 varieties of day lilies. We have a large orange tree that bears large oranges in the winter and we have a large lemon tree that produces tons of lemons.*

*We have a large variety of birds and hummingbirds that visit us year round.*

*"We wish you the love and good fortune that we had in 4 years of living here."*
