

8979 Navigation Cir

This lot is so private and quiet. The entire backyard is surrounded by bird filled trees. Each morning and evening the yard is quietly tranquil with the exception of the nearly perfect natural soundtrack of bird song. The backyard is huge. Beautifully designed outside living space; layout of pool, covered rear porch, Ramada/full bathroom, wildflowers, garden, fruit/hardwood tree canopies and stone fire pit.

This is a single story home with intentionally designed high ceilings. Saving energy and creating space throughout the home. Set back from the road with a peaked roof line and large pillars this house has great street appeal.
