DETAILS

The Mountain Bluff is a casual traditional wall unit crafted in pine solids and selected maple veneers. This impressive piece is enhanced by large scale moldings and subtle details rendered in a distressed dark cherry finish and accented with antique style worn brass hardware. The finish is hand applied, distressed, glazed and highlighted to capture the natural characteristic of pine. The center console features an open center area with two shelves for electronics, adjustable shelves behind two framed glass doors and cut outs for wire management. Pier units have shelves for display and raised panel doors concealing one adjustable shelf behind each. The surround sound bridge has wire management access.
