# STOP RENTING. START OWNING.

## SOME OF THE REASONS WHY IT'S TIME TO BUY.

- **CHANCE TO BUILD EQUITY FOR YOURSELF INSTEAD FOR A LANDLORD**  
Money paid for rent is money that you will never see again. In contrast, each mortgage payment made builds incremental ownership interest in a home.
- **POTENTIAL TAX BENEFITS**  
Under certain conditions, many buyers are able to deduct the interest paid on a mortgage, property taxes, and some of the costs involved in buying a home.
- **IT IS ALL YOURS!**  
Enjoy the freedom of owning something that is all yours!
- **IT'S A LIFESTYLE**  
In general, since homeowners are invested in their homes- they take better care of their residences.
- **PREDICTABILITY**  
Unlike rent, fixed-rate mortgage payments are available for 30 years. Fixed rates don't rise over the years.
- **YOU WILL BE SAVING!**  
For many, building equity in a home is a ready-made savings plan. And for most buyers, when selling a home any profits made up to \$500,000 (for a couple) are tax free.
