

You know how it is when you find a new outfit and fits like a glove....that's how me & my husband felt when we first looked at this house. When we first moved to Magnolia in November of 1995 I drove through this neighborhood and thought how nice it would be to live there and then 6 years later we ended up buying a house in this neighborhood.

The homes are not "cookie cutter" and the yards are spacious especially this house! Sitting on two full lots you have a huge front and back yard with enough privacy but still can get to know your neighbors. It's a well established and quiet.

The house just felt right from the very beginning....loved the flow of the house and that there is plenty of natural light in every room. The upstairs bedrooms were all nice size and all had walk in closets! We had two boys and one girl so the three bedrooms fit the bill. The boys had individual sinks to claim and the door to the toilet/tub area made it great for privacy. The single bathroom next to the back bedroom was an answer to our daughter's request that she didn't have to share a bathroom with those "nasty" boys! She was thrilled!

Of course my husband loved the 3 car garage and yes you can fit 3 cars in it (Hurricane Ike) and there was plenty of room for the riding lawnmower etc. We also liked having a wood burning fireplace....it's great to hear the crackle of a fire on cold winter days.

Also another great thing about living in Windmill Estates is that we were only out of power for a day and a half when Hurricane Ike came through. Since you are in the city limits they get priority to get the power back up and running.

The lake (Cecil Lake) is great to go out a line and have some fun catching bass. My husband enjoyed going over there and just be able to unwind.
