ADDITIONAL NOTICES TO BUYER:

- (1) The Texas Department of Public Safety maintains a database that the public may search, at no cost, to determine if registered sex offenders are located in certain zip code areas. To search the database, visit www.txdps.state.tx.us. For information concerning past criminal activity in certain areas or neighborhoods, contact the local police department.
- (2) If the Property is located in a coastal area that is seaward of the Gulf Intracoastal Waterway or within 1,000 feet of the mean high tide bordering the Gulf of Mexico, the Property may be subject to the Open Beaches Act or the Dune Protection Act (Chapter 61 or 63, Natural Resources Code, respectively) and a beachfront construction certificate or dune protection permit may be required for repairs or improvements. Contact the local government with ordinance authority over construction adjacent to public beaches for more information.
- (3) If the Property is located in a seacoast territory of this state designated as a catastrophe area by the Commissioner of the Texas Department of Insurance, the Property may be subject to additional requirements to obtain or continue windstorm and hail insurance. A certificate of compliance may be required for repairs or improvements to the Property. For more information, please review *Information Regarding Windstorm and Hail Insurance for Certain Properties* (TXR 2518) and contact the Texas Department of Insurance or the Texas Windstorm Insurance Association.
- (4) This Property may be located near a military installation and may be affected by high noise or air installation compatible use zones or other operations. Information relating to high noise and compatible use zones is available in the most recent Air Installation Compatible Use Zone Study or Joint Land Use Study prepared for a military installation and may be accessed on the Internet website of the military installation and of the county and any municipality in which the military installation is located.
- (5) If you are basing your offers on square footage, measurements, or boundaries, you should have those items independently measured to verify any reported information.
- (6) The following providers currently provide service to the Property:

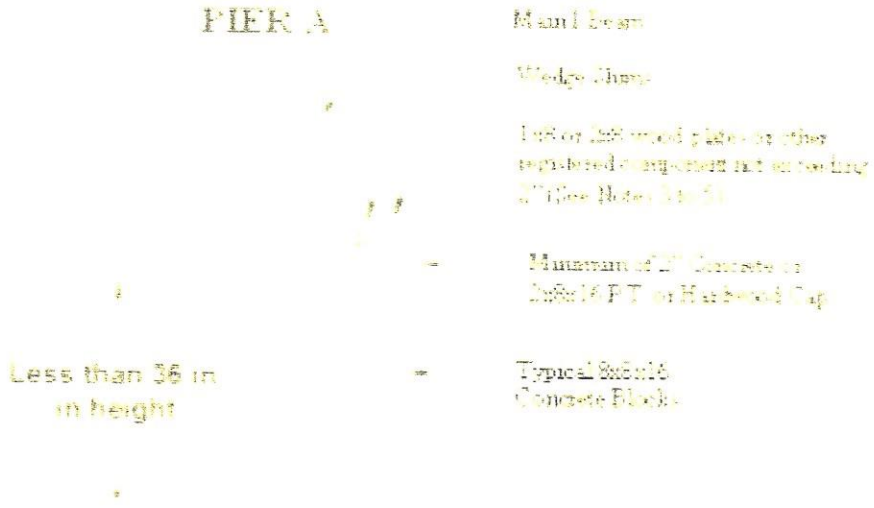

Electric: <u>Ambit Energy</u>	phone #: <u>979-299-8278</u>

PIER DESIGN (SINGLE & MULTI-SECTION STACK)

Pier A: Single open cell, 8 blocks. Maximum inches as measured of the footer to concrete block. are installed v perpendicular Beam. Open vertical and in s

TIE DOWN ANCHORS AND STRAPS:

Tie down anchors are assumed to be a minimum 30" long anchor with a minimum of two 4" helix, and stabilizer plate. There is no practical way to verify this during the inspection. The anchor diameter was verified to meet the 23/32" minimum diameter requirement. The strapping meets the 1.25"X0.035" thickness requirement. For a 53 ft long 32 ft double wide manufactured home with the maximum vertical distance below 29", the maximum strap spacing is 8 feet for WindZone-2 with a minimum of 3 tie-downs per section at a 38-degree angle from vertical. The 8 vertical and diagonal tiedowns on each side meet that requirement.

CONCLUSIONS/ RECOMMENDATIONS:

Footers and support blocks appear to be in good shape based on visual external inspection. No flood damage that would require repair was noted during the inspection. I do not recommend any further foundation repair work at this time. I do recommend that the homeowner establish a regular watering plan around the perimeter of the structure during periods of dry weather so that the moisture in the soil below the support footings foundation will remain more consistent.

Respectfully submitted,

Greg A. Brooks, P.E. #114197

PRELIMINARY FOUNDATION INSPECTION REPORT: JOB NO. 17-A290

LOCATION: 4563 CR670
Angleton, TX

DATE OF INSPECTION: September 20, 2017

OBSERVATIONS:

This structure consists of a double-wide 32' x 53' manufactured home resting on a concrete footer support grid. Per county tax records, the structure was placed on site in 2006. Less than 1 month prior to inspection, rising river water flooded the base of the foundation approximately 6 inches. Refer to this write-up for a discussion on notable deficiencies. Recommendations and requirements detailed below are in line with administrative rules of the Texas Department of Housing and Community Affairs 10 Texas Administrative Code, Chapter 80 for Manufactured Housing. Rules for this report are based on an effective date of November 23, 2014.

FOOTERS:

Pier footers consist of 2 concrete footers running the length of the manufactured home pier supports bearing on clay based soil. Based on the Texas Department of Housing recommendations, clay based soils are allowed a maximum capacity of 1,500 lb/ft² or 2,700 lbs per pier. Based on a unit width of 16' the structure meets the maximum allowed spacing requirements. Concrete blocks are stacked less than 29" from grade to the main I-Beam. Pier construction meets the intent of the detail below supplied by Texas Department of Housing. Pier spacing meets the requirements of the pier load at tabulated spacing table.

TEXAS WINDSTORM INSPECTIONS

Dear Homeowner:

Cedna Engineering has performed a windstorm inspection at the property listed below.

Contractor: Grandchamp Roofing

Owner: _____

Address: 4503 CR 1670, Angleton

The roof covering for the structure listed above has been installed in accordance with the building specifications of the Texas Department of Insurance and the inspections performed by an inspector with Cedna Engineering. The roof covering has been deemed to comply with the Windstorm Inspection Requirements.

Once payment and paperwork for the inspection has been received and processed, Cedna will submit a WPI-2-BC-5 to the Texas Department of Insurance. The Texas Department of Insurance will post the WPI-8 online after 15-23 business days. The Texas Department of Insurance will no longer mail certificates as they have gone paperless. You may access your certificate by going to cedna.net. Click on the red WPI-8 CERTIFICATE button and enter your house number and street.
