

invitation home

Home is where the SMART is.

Enjoy the convenience of running your home easily through your smart phone, tablet or computer. Smart Home services are installed in your home and available now. Smart Home services have been shown to save residents up to 15%* on their electric bill. Start saving now!

smart home

Package \$17.95/mo

Temperature Control

Control your thermostat via your smart phone, tablet, and computer. Temperatures can be increased or decreased and schedules can be created and edited on the dashboard.

Remote Lock/Unlock

Lock and unlock your front door from your smart phone remotely or onsite.

Unique Access Codes

Access codes are used to enter the home via the keypad lock located on the front door of the home. You can create an unlimited number of codes, which can be set to expire when necessary.

Event History and Notifications

All activity from the Smart Home system is logged and will include the date and time the front door is locked or unlocked. You can also set notifications for actions in your home, for example, when someone uses a code.
