CONCERNING THE PROPERTY AT \_\_\_\_\_

1611 Redway Ln  
Houston, TX 77062-5414

### A. FLOOD AREAS:

- (1) The Federal Emergency Management Agency (FEMA) designates areas that have a high risk of flooding as special flood hazard areas.
- (2) A property that is in a special flood hazard area lies in a "V-Zone" or "A-Zone" as noted on flood insurance rate maps. Both V-Zone and A-Zone areas are areas with high risk of flooding.
- (3) Some properties may also lie in the "floodway" which is the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge a flood under FEMA rules. Communities must regulate development in these floodways.

### B. AVAILABILITY OF FLOOD INSURANCE:

- (1) Generally, flood insurance is available regardless of whether the property is located in or out of a special flood hazard area. Contact your insurance agent to determine if any limitations or restrictions apply to the property in which you are interested.
- (2) FEMA encourages every property owner to purchase flood insurance regardless of whether the property is in a high, moderate, or low risk flood area.
- (3) A homeowner may obtain flood insurance coverage (up to certain limits) through the National Flood Insurance Program. Supplemental coverage is available through private insurance carriers.
- (4) A mortgage lender making a federally related mortgage will require the borrower to maintain flood insurance if the property is in a special flood hazard area.

### C. GROUND FLOOR REQUIREMENTS:

- (1) Many homes in special flood hazard areas are built-up or are elevated. In elevated homes the ground floor typically lies below the base flood elevation and the first floor is elevated on piers, columns, posts, or piles. The base flood elevation is the highest level at which a flood is likely to occur as shown on flood insurance rate maps.
- (2) Federal, state, county, and city regulations:
  - (a) restrict the use and construction of any ground floor enclosures in elevated homes that are in special flood hazard areas.
  - (b) may prohibit or restrict the remodeling, rebuilding, and redevelopment of property and improvements in the floodway.
- (3) The first floor of all homes must now be built above the base flood elevation.
  - (a) Older homes may have been built in compliance with applicable regulations at the time of construction and may have first floors that lie below the base flood elevation, but flood insurance rates for such homes may be significant.

(TXR 1414) 01-01-14

Information about Special Flood Hazard Areas concerning \_\_\_\_\_

- (b) It is possible that modifications were made to a ground floor enclosure after a home was first built. The modifications may or may not comply with applicable regulations and may or may not affect flood insurance rates.
  - (c) It is important for a buyer to determine if the first floor of a home is elevated at or above the base flood elevation. It is also important for a buyer to determine if the property lies in a floodway.
- (4) Ground floor enclosures that lie below the base flood elevation may be used only for: (i) parking; (ii) storage; and (iii) building access. Plumbing, mechanical, or electrical items in ground floor enclosures that lie below the base flood elevation may be prohibited or restricted and may not be eligible for flood insurance coverage. Additionally:
- (a) in A-Zones, the ground floor enclosures below the base flood elevation must have flow-through vents or openings that permit the automatic entry and exit of floodwaters;
  - (b) in V-Zones, the ground floor enclosures must have break-away walls, screening, or lattice walls; and
  - (c) in floodways, the remodeling or reconstruction of any improvements may be prohibited or otherwise restricted.

**D. COMPLIANCE:**

- (1) The above-referenced property may or may not comply with regulations affecting ground floor enclosures below the base flood elevation.
- (2) A property owner's eligibility to purchase or maintain flood insurance, as well as the cost of the flood insurance, is dependent on whether the property complies with the regulations affecting ground floor enclosures.
- (3) A purchaser or property owner may be required to remove or modify a ground floor enclosure that is not in compliance with city or county building requirements or is not entitled to an exemption from such requirements.
- (4) A flood insurance policy maintained by the current property owner does not mean that the property is in compliance with the regulations affecting ground floor enclosures or that the buyer will be able to continue to maintain flood insurance at the same rate.
- (5) Insurance carriers calculate the cost of flood insurance using a rate that is based on the elevation of the lowest floor.
  - (a) If the ground floor lies below the base flood elevation and does not meet federal, state, county, and city requirements, the ground floor will be the lowest floor for the purpose of computing the rate.
  - (b) If the property is in compliance, the first elevated floor will be the lowest floor and the insurance rate will be significantly less than the rate for a property that is not in compliance.
  - (c) If the property lies in a V-Zone the flood insurance rate will be impacted if a ground floor enclosure below the base flood elevation exceeds 299 square feet (even if constructed with break-away walls).

**E. ELEVATION CERTIFICATE:**

The elevation certificate is an important tool in determining flood insurance rates. It is used to provide elevation information that is necessary to ensure compliance with floodplain management laws. To determine the proper insurance premium rate, insurers rely on an elevation certificate to certify building elevations at an acceptable level above flood map levels. If available in your area, it is recommended that you obtain an elevation certificate for the property as soon as possible to accurately determine future flood insurance rates.

**You are encouraged to: (1) inspect the property for all purposes, including compliance with any ground floor enclosure requirement; (2) review the flood insurance policy (costs and coverage) with your insurance agent; and (3) contact the building permitting authority if you have any questions about building requirements or compliance issues.**

**ADDENDUM FOR SELLER'S DISCLOSURE OF INFORMATION  
 ON LEAD-BASED PAINT AND LEAD-BASED PAINT HAZARDS  
 AS REQUIRED BY FEDERAL LAW**

10-10-11

CONCERNING THE PROPERTY AT 1611 Redway Ln Houston  
 (Street Address and City)

**A. LEAD WARNING STATEMENT:** "Every purchaser of any interest in residential real property on which a residential dwelling was built prior to 1978 is notified that such property may present exposure to lead from lead-based paint that may place young children at risk of developing lead poisoning. Lead poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory. Lead poisoning also poses a particular risk to pregnant women. The seller of any interest in residential real property is required to provide the buyer with any information on lead-based paint hazards from risk assessments or inspections in the seller's possession and notify the buyer of any known lead-based paint hazards. A risk assessment or inspection for possible lead-paint hazards is recommended prior to purchase."

**NOTICE: Inspector must be properly certified as required by federal law.**

**B. SELLER'S DISCLOSURE:**

1. PRESENCE OF LEAD-BASED PAINT AND/OR LEAD-BASED PAINT HAZARDS (check one box only):

# Notice to a Purchaser of Real Property in a Water District

Note: This Notice should be completed and given to a prospective purchaser prior to execution of a binding contract of sale and purchase, should be executed by the seller and purchaser and should be attached as a separate portion of a purchase contract. Please see NOTE at bottom of page.

1) The real property, described below, that you are about to purchase is located in the Clear Lake City Water Auth District. The district has taxing authority separate from any other taxing authority and may, subject to voter approval, issue an unlimited amount of bonds and levy an unlimited rate of tax in payment of such bonds. As of this date, the rate of taxes levied by the district on real property located in the district is \$ 0.27 on each \$100 of assessed valuation. If the district has not yet levied taxes, the most recent projected rate of tax, as of this date, is \$ 0.27 on each \$100 of assessed valuation. The total amount of bonds, excluding refunding bonds and any bonds or any portion of bonds issued that are payable solely from revenues received or expected to be received under a contract with a governmental entity, approved by the voters and which have been or may, at this date, be issued in \$ 0, and the aggregate initial principal amounts of all bonds issued for one or more of the specified facilities of the district and payable in whole or in part from property taxes is \$ 0.

2) The district has the authority to adopt and impose a standby fee on property in the district that has water, sanitary sewer, or drainage facilities and services available but not connected and which does not have a house, building, or other improvement located thereon and does not substantially utilize the utility capacity available to the property. The district may exercise the authority without holding an election on the matter. As of this date, the most recent amount of the standby fee is \$                     . An unpaid standby fee is a personal obligation of the person that owned the property at the time of imposition and is secured by a lien on the property. Any person may request a certificate from the district stating the amount, if any, of unpaid standby fees on a tract of property in the district.

3) Mark an "X" in one of the following three spaces and then complete as instructed.

- Notice for Districts Located in Whole or in Part within the Corporate Boundaries of a Municipality (Complete Paragraph A).
- Notice for Districts Located in Whole or in Part in the Extraterritorial Jurisdiction of One or More Home-Rule Municipalities and Not Located within the Corporate Boundaries of a Municipality (Complete Paragraph B).
- Notice for Districts that are NOT Located in Whole or in Part within the Corporate Boundaries of a Municipality or the Extraterritorial Jurisdiction of One or More Home-Rule Municipalities.

A) The district is located in whole or in part within the corporate boundaries of the City of Houston. The taxpayers of the district are subject to the taxes imposed by the municipality and by the district until the district is dissolved. By law, a district located within the corporate boundaries of a municipality may be dissolved by municipal ordinance without the consent of the district or the voters of the district.

B) The district is located in whole or in part in the extraterritorial jurisdiction of the City of                     . By law, a district located in the extraterritorial jurisdiction of a municipality may be annexed without the consent of the district or the voters of the district. When a district is annexed, the district is dissolved.

4) The purpose of this district is to provide water, sewer, drainage, or flood control facilities and services within the district through the issuance of bonds payable in whole or in part from property taxes. The cost of these utility facilities is not included in the purchase price of your property, and these utility facilities are owned or to be owned by the district. The legal description of the property you are acquiring is as follows: Lt 375 Blk 33 Clear Lake City Sec 02

NOTE: Correct district name, tax rate, bond amounts, and legal description are to be placed in the appropriate space. Except for notices included as an addendum or paragraph of a purchase contract, the notice shall be executed by the seller and purchaser, as indicated. If the district does not propose to provide one or more of the specified facilities and services, the appropriate purpose may be eliminated. If the district has not yet levied taxes, a statement of the district's most recent projected rate of tax is to be placed in the appropriate space. If the district does not have approval from the commission to adopt and impose a standby fee, the second paragraph of the notice may be deleted. For the purposes of the notice form required to be given to the prospective purchaser prior to execution of a binding contract of sale and purchase, a seller and any agent, representative, or person acting on the seller's behalf may modify the notice by substitution of the words "January 1, 2018" for the words "this date" and place the correct calendar year in the appropriate space.

- Present flood insurance coverage (if yes, attach TXR 1414).
- Previous flooding due to a failure or breach of a reservoir or a controlled or emergency release of water from a reservoir.
- Previous flooding due to a natural flood event (if yes, attach TXR 1414).
- Previous water penetration into a structure on the Property due to a natural flood event (if yes, attach TXR 1414).
- Located  wholly  partly in a 100-year floodplain (Special Flood Hazard Area-Zone A, V, A99, AE AO, AH, VE, or AR) (if yes, attach TXR 1414).
- Located  wholly  partly in a 500-year floodplain (Moderate Flood Hazard Area-Zone X (shaded)).
- Located  wholly  partly in a floodway (if yes, attach TXR 1414).
- Located  wholly  partly in a flood pool.
- Located  wholly  partly in a reservoir.

If the answer to any of the above is yes, explain (attach additional sheets as necessary): Not in a flood zone to our knowledge. Did not flood during Harvey.

\*For purposes of this notice:

"100-year floodplain" means any area of land that: (A) is identified on the flood insurance rate map as a special flood hazard area, which is designated as Zone A, V, A99, AE, AO, AH, VE, or AR on the map; (B) has a one percent annual chance of flooding, which is considered to be a high risk of flooding; and (C) may include a regulatory floodway, flood pool, or reservoir.

"500-year floodplain" means any area of land that: (A) is identified on the flood insurance rate map as a moderate flood hazard area, which is designated on the map as Zone X (shaded); and (B) has a two-tenths of one percent annual chance of flooding, which is considered to be a moderate risk of flooding.

"Flood pool" means the area adjacent to a reservoir that lies above the normal maximum operating level of the reservoir and that is subject to controlled inundation under the management of the United States Army Corps of Engineers.

"Flood insurance rate map" means the most recent flood hazard map published by the Federal Emergency Management Agency under the National Flood Insurance Act of 1968 (42 U.S.C. Section 4001 et seq.).

"Floodway" means an area that is identified on the flood insurance rate map as a regulatory floodway, which includes the channel of a river or other watercourse and the adjacent land areas that must be reserved for the discharge of a base flood, also referred to as a 100-year flood, without cumulatively increasing the water surface elevation more than a designated height.

"Reservoir" means a water impoundment project operated by the United States Army Corps of Engineers that is intended to retain water or delay the runoff of water in a designated surface area of land.
