

Top 5 Things You Love About Your Home!

1. Rooftop! Lots of outdoor space for hosting and relaxing with friends & family, especially for the area. Backyard much bigger than most Houston townhouses too.
2. Open concept main floor. Great area to cook, entertain and hang out. High, exposed ceilings are a great industrial design feature.
3. Location, location, location. Walkable to dozens of cool restaurants and bars. Short commute to most work areas. Short car ride to pro & college sports, parks and museums.
4. Design details. The finishing details from the bottom to the top of the house rival those of townhouses in a much higher price bracket.
5. Split bedroom plan. Master & guest bedroom having a common floor between them makes for great privacy.

MA fee → all landscaping outside of site, Upkeep of Midtown.
