Basically a new house!!!

What I love about this house and neighborhood: this house is so adorable at Christmas! It looks like a beautiful Christmas cottage, it's perfect for decorating on every holiday with twinkling lights and decorations

We loved watching the planes flying over and seeing the stars through the upper windows

This home is so cozy but has a nice big living room perfect for parties

We will miss the neighbors, they are all wonderful, we are like family, such a good group of people all around you

So many beautiful memories in this home and now you can make new ones! This house has never Flooded and did not come close to flooding, it drains well and sits up high and dry
