

CUSTOM DESIGNED MASTER CLOSET SPECIFICATIONS

Custom walk-in closet designed by homeowner, implemented and installed by SpaceManager Custom Closets. Every square foot, both horizontally and vertically, has been utilized in this closet space to maximize hanging, shelving and drawer space. What you may like to know is that this closet includes:

Hanging Space -

To give you a visual of how much that is, when you walk out of 38 linear feet the bedroom, imagine a continuous clothes rod beginning at the French doors which lead to the lanai and extending all the way to within 1 foot of the front door. That is how many clothes can be hung on the rods in this closet!

Shelf Space –

Shelves have been designed with varying widths and heights 49 linear feet to create the flexibility to be used as desired for shoes, purses, folded clothes, baskets, etc. You decide what fits your personal needs best!

Drawer Space -

There are six 30-inch wide drawers of varying heights. One drawer includes sock dividers; another drawer is lock-able and includes double-decker velvet-lined jewelry trays with dividers.

2 Belt Racks

2 Tie Racks

1 Valet Arm
