-	Located wholly partly in a flood pool.
_ 🗶	Located wholly partly in a reservoir.
the answ	er to any of the above is yes, explain (attach additional sheets as necessary):
	poses of this notice:
which is which is	ar floodplain" means any area of land that: (A) is identified on the flood insurance rate map as a special flood hazard area, a designated as Zone A, V, A99, AE, AO, AH, VE, or AR on the map; (B) has a one percent annual chance of flooding, considered to be a high risk of flooding; and (C) may include a regulatory floodway, flood pool, or reservoir.
"500-ye	ar floodplain" means any area of land that: (A) is identified on the flood insurance rate map as a moderate flood hazard hich is designated on the map as Zone X (shaded): and (B), has a two tenths of one persont around the flood hazard

has a two-tenths of one percent annual chance of flooding, which is considered to be a moderate risk of flooding.

"Flood pool" means the area adjacent to a reservoir that lies above the normal maximum operating level of the reservoir and that is subject to controlled inundation under the management of the United States Army Corps of Engineers.

"Flood insurance rate map" means the most recent flood hazard map published by the Federal Emergency Management Agency under the National Flood Insurance Act of 1968 (42 U.S.C. Section 4001 et seq.).

"Floodway" means an area that is identified on the flood insurance rate map as a regulatory floodway, which includes the channel of a river or other watercourse and the adjacent land areas that must be reserved for the discharge of a base flood, also referred to as a 100-year flood, without cumulatively increasing the water surface elevation more than a designated height.

"Reservoir" means a water impoundment project operated by the United States Army Corps of Engineers that is intended to retain water or delay the runoff of water in a designated surface area of land.
