

Home Touring Safety

Let's stay safe and follow these guidelines in light of the coronavirus:

If you feel the slightest bit sick, come back when you're 100% healthy.

If you see another group already touring, please come back later.

Complete your tour as quickly as possible so others can also tour alone.

Avoid touching your face, and wash your hands vigorously after you leave.

Cover your nose and mouth with a tissue, clothing, or the inside of your elbow if you cough or sneeze.

Limit what you touch. Use a tissue or clothing to touch doorknobs and other surfaces.

You can leave the lights on. Agents, please skip leaving your business cards.

If you see anything concerning, let us know at **1-877-973-3346**.

Best of luck with your home search!
