A note from the designer!

“I can make a site visit if necessary or answer any questions with any potential Buyers. If a buyer likes the overall design, but wants changes, I will make those too. I put two spas into the design, to show the two best locations, because buyers will have different preferences. If any buyers want to see the design, with the spa in their preferred location, then let me know, and I will send the revised with one spa.”

Janine Wilson, Designer and Builder
