

We love living in the village of Creekside Park. Creekside Park has a wide range of amenities for people of all ages and interests, including fine and casual dining, shopping, entertainment ranging from parks with playgrounds, a water park, walking/biking trails, an obstacle course, to a luxury cinema. We like being able to walk our kids to school and to Rob Fleming Park on the weekends to take our dog to the dog park.

Our house is a great house for any type of family. We love our beautiful quiet cul-de-sac in our lakefront neighborhood and our awesome neighbors. Those who like fishing will find our neighborhood great for their hobby. One of our favorite things about our house is the privacy we get with no rear neighbors and no neighbor windows looking into our private space while we enjoy our pool and spa. The layout of the house is great with the master and a guest bedroom on the main floor and our kids' bedrooms and a media room upstairs. Our house is great for entertaining with its open and airy feel with light and neutral color palette. We often have family movie nights in our media room set up to look and feel like a movie theater. Our new stainless steel water softener/filter provides clean, pure water for the whole house. This is a house with great space, finishes, amenities and feel in a gorgeous neighborhood designed to please its residents.
