

We adore our home and charming gated community. Our move-in ready, two-story home has been well maintained and boasts beautiful updates. We love the open floor plan, tons of natural light and high ceilings when we walk through the front door. On chilly nights, one can enjoy the living room gas fireplace or sit by the pool and roast marshmallows. When things get messy, the laundry and ½ bath are right off the oversized garage for easy cleanup. Our master suite includes a spa-like bath w/ enormous walk-in closet, double sinks, a soaking tub & separate shower. We love that upstairs has 3 beds, two full baths and a large game room to house all our kid's mess. Storage galore! Every bedroom has a walk-in closet as well as a very large walkthrough attic. A secondary staircase leads to a private in-law suite/studio/office with bath. We have enjoyed the beautiful, tranquil backyard with its many outdoor seating areas and perennial gardens. But can't forget the sparkling pool/spa & amazing water feature that includes a waterfall, grotto, slide and jumping rock. Perfect for every outdoor gathering! Can you imagine hanging out here with your family and friends creating unforgettable memories? We absolutely love the privacy but the convenience to shopping and I-45 is just as nice! We've got the best of both worlds with this home - privacy and convenience. This truly is a special home and a definite must see! We will surely miss it!
