

Improvements

- Painted the whole house
- Installed a ceiling fan in the spare room upstairs
- Updated the master bedroom and dining area ceiling fans
- Updated the dishwasher
- Removed old, hazardous electrical systems like nonworking doorbells and nonworking security pieces
- Replaced all of the plugs and switches
- Updated all of the vent registers and cleaned them
- Updated the exhaust vent in the upstairs bathroom
- Updated the upper stairs light fixture
- Updated all three kitchen light fixtures
- Removed the backyard concrete slab which was causing a negative slope for water water damage to occur
- Fixed the sliding glass door to actually slide open and closed again (it was stuck)
- Installed a new touchscreen security system with ADT
- Updated all of the water fixtures (5 total)
- Replaced all of the mirrors
- Fixed the interior door handles to be correct (some were backwards or upside down lol)
- Replaced all of the exterior locks to work with the same key, instead of two different keys
