

Woodtrace Master Planned Community

Amenities in Woodtrace include a recreation center with a pool, a clubhouse, and five miles of wooded greenbelt trails. One of the highlights of the community amenities at Woodtrace is our Central Park. The park includes a natural creek, footbridges, and trails. The most stunning feature of this wooded neighborhood is the 23-acre Lake Woodtrace. Located next to the recreation center in the heart of the community, Lake Woodtrace is a real spring-fed lake that houses a canoe/kayak launch and fishing dock.
