

Why we *love*
19515 Belton Shore Dr.

Hello & welcome!

We're so happy you're interested in our home and community. It's been a really great place to live!

We purchased 19515 Belton Shore Dr. after falling in love with its safe community and prestigious Highland Homes quality build. Love would have it that later that year we'd close on our home and celebrate our first Christmas together with our son. To say this home's become quite special to us over the years would be an understatement!

While searching for our perfect place to live, we knew this was the home for us-- an ideal size for three, with a little room to grow. Its excellent layout and flow, cozy community vibe, and stellar location in an amenity-driven neighborhood were a few other notable qualities that meant a lot to us. Living in this home felt like a retreat from the chaos and hectic life of work/traffic/congestion!

We've made many memories in this home together enjoying summer days at the amazing community pools and clubhouses, dinners around our table, and cocktail hours on our spacious patio. We love the balance we've found in living here. Our neighbors are warm and friendly, and we're located in a cul-de-sac area that's quiet and nestled amongst shaded trees for an added sense of privacy.

We've absolutely adored living at 19515 Belton Shore Dr. and we'll cherish the moments we've shared here, but now we're ready for a new life in New Zealand. We're so excited for what's in store, and are even more excited for our happy home to become a place of joy for someone else's family now.

Thank you for visiting.

-The Rodriguez family
