Important Information

Green Mountain Energy Company (PUCT License 10009) is the nation's longest serving renewable energy retailer. Although we cannot promise that renewable energy will go directly to your home, the voluntary renewable portion of the electricity you purchase is added to the grid on your behalf and displaces power that's typically generated from more polluting resources.

Texas New Mexico Power, your transmission and distribution service provider, maintains the poles and wires that deliver generic power from the grid to meet your minute by minute consumption. Therefore, you will continue to receive the same reliability of service as you always have. Texas New Mexico Power will provide your metering and emergency services, so for metering and other routine services or if your power goes out, please call 1-888-866-7456.

Notice to Customers -- If you believe this bill includes unauthorized charges, you should contact Green Mountain Energy to dispute those charges. If not satisfied with our review, you may file a complaint with the Public Utility Commission of Texas, P.O. Box 13326, Austin, Texas 78711-3326, 512-936-7120 or toll-free in Texas at 1-888-782-8477. Hearing and speech-impaired individuals with text telephones (TTY) may contact the commission at 512-936-7136 or toll-free at 1-800-735-2988.
