

# Why we love this house

*-what the owners are saying*

- **This home is a great floorplan for families - everyone has their own space.**
- **We love the three-car garage! For the extra car, or for organizing and storing - the extra space in the garage is so helpful.**
- **We love the large master bedroom. There is room for a sitting area or some exercise equipment, in addition to your bedroom furniture.**
- **The upstairs playroom is the perfect size for all the toys and things your children need for their own space.**
- **We enjoy the openness between the kitchen and the family room.**
- **The wood floors on the first floor can withstand all the wear and tear a family with children or pets can dispense!**
- **The vaulted ceilings and large windows in the family room let in so much light.**
- **May Valley Park is just at the end of the street. It is one of our favorite things about being in May Valley.**
- **The May Valley Splash Pad is a must for these Texas summers.**
- **This home has given us wonderful memories and we are excited for another family to build their own here!**
