TOPOGRAPHIC SURVEY ONLY
THIS IS NOT A BOUNDARY SURVEY

I hereby declare that the elevations and drainage patterns shown hereon were developed from a survey of this property, performed on the survey date noted hereon, and accurately and truly depict the elevations as they existed on this date. The relative elevations as depicted may change subsequent to the date of this survey, due to the consolidation or upheaval of the soil, addition or removal of the soil by acts of man, erosion by wind or water, or other factors. Therefore, this survey may not depict the elevations and drainage patterns of this property after the date of survey.

The elevations and drainage patterns shown above are the certified findings of the Professional Engineer or Land Surveyor of the finished ground grades around the structure on the date of the survey. The homeowner must maintain these elevations and grades to properly drain the water away from the home.
