

What I love About My Home

I love how open and bright my home is. We have an open floorplan that allows you to see into the living area from the kitchen very easily. This is great for having guests over. I also love the tall ceilings and big, open windows in the living area. They allow for a lot of natural light. The tile in the main areas is super easy to maintain and keep clean. The outdoor kitchen is also a great feature. Makes grilling and preparing food easy, while relaxing on the quiet patio, which also has a ceiling fan.
