is \$0.26 on each \$100 of assessed. The total amount of bonds, excluding refunding bonds and any bonds or any portion of bonds issued that are payable solely from revenues received or expected to be received under a contract with a governmental entity, approved by the voters and which have been or may, at this date, be issued is \$299,390,400, and the aggregate principal amounts of all outstanding bonds issued for one or more of the specified facilities of the Authority and payable in whole or in part from property taxes is \$117,675,000.

The Authority also has the authority to adopt and impose a standby fee on property in the Authority that has water, sanitary sewer, or drainage facilities and services available but not connected and which does not have a house, building, or other improvement located thereon and does not substantially utilize the utility capacity available to the Authority. The Authority may exercise the authority without holding an election on the matter. As of this date, the most recent amount of the standby fee is \$0.00. An unpaid standby fee is a personal obligation of the person that owned the property at the time of imposition and is secured by a lien on the property. Under Section 43.076, dissolution must be accompanied by agreement among the Authority and all the cities in which the Authority then lies, which agreement may specify any agreed method of allocation of assets and liabilities.

The purpose of this Authority is to provide water, sewer, drainage, or flood control facilities and services within the Authority through the issuance of bonds payable in whole or in part from property taxes. The cost of these utility facilities is not included in the purchase price of your property, and these utility facilities are owned or to be owned by the Authority.
