An onsite-manager is located at the SplashPad clubhouse.

Area Recreation

In the true fashion of family resorts, the Legends Ranch recreation center is the destination of choice when it's time to unwind.

The \$1.5 million complex centers around a lodge-style clubhouse with a beautiful natural stone fireplace. Just off the large gathering room is a fully-operational kitchen with a pass-through serving bar leading to the pool area.

A tour of the clubhouse grounds reveals a well-rounded group of outdoor amenities. Here you'll find a Jr. Olympic-size pool, a toddler splash pool, children's playground, jogging trails and an arbor that looks out onto the lake.

Toddler Splash Pool

It begins with a zero-edge entry, graduating to a 12" maximum depth. Young residents love its spraying centerpiece and waterfall umbrella—those looking on enjoy the cooling spray.

**Children's Playground**

Nothing beats a multi-level playscape for just plain fun and exercise. This sturdy play structure features, a zig-zag tube slide, wave slide and open spiral slide. There is also a mock rock-climbing wall and bridges that span the playscape.

Lake Terrace Arbor

At the northern edge of the grounds is a vine-covered arbor for viewing one of the many lakes of Legends Ranch. Here, at the water's edge, a vista unfolds, revealing a neighborhood full of enchanting features.

Benches for Reflecting

Throughout the recreation park are benches and arbors for watching those at play or for quiet reflection.

Poolside Cabana Bar

In addition to the full kitchen, there is a poolside cabana with a full size wet-bar and gas grill. Ceiling fans allow for cool poolside parties on those hot summer days.
