

Interview With The Seller

What is your favorite thing about your home?

Our favorite thing is when you walk into our home and see the high ceiling and openness of the house. We have made many memories in the backyard, whether entertaining or playing with our children. Living on a quiet street, also allows us to spend time out front with our family. We've loved raising our family here!

Where is your favorite local restaurant or activity?

There are so many choices. Downtown Conroe and The Woodlands are each only 10 minutes away with something for everyone. Our favorite is to grab a pizza from Grimaldi's and take a walk along the waterway.

What do you like about your location?

We love the uniqueness of the neighborhood: the scenic drive through the front, the mature trees and how each home has a different curb appeal. We're close to everything, yet tucked away in a peaceful setting.
