WHAT WE LOVE ABOUT OUR HOME

- It was our first home together.
- Our home has been a place where family feel comfortable to stay with us while finishing college, staying between armed services deployments, or taking shelter in a winter storm.
- Family and friends love the backyard! It's great for entertaining.
- Felix loves floating in the pool with an adult beverage in one hand and a cigar in the other hand watching the Astros game on the deck TV.
- We spent many hours in the pool having great conversations just floating and talking.
- At the beginning of the summer, we buy new pool toys, floats, and noodles. It's fun going to the pool store to decide what our theme will be for the summer.
- Amy loved decorating for the holidays. With the tall ceiling in the living room, we always had a large Christmas tree.
- Because of the spacious living room and media room, we hosted many family gatherings for birthdays, Christmas Eve, super bowl games, and dinners.
- Proximity to our favorite venues for entertainment (Vintage Park, Star Cinema Grill), restaurants (Crafthouse, Jaunitas, BBQ places), and shopping (HEB, Adelynne's Boutique).
- there are some great hiking/biking trails and parks near Gettysburg.
