

**11630 Southlake Drive
Houston, TX 77077**

TO THE NEW OWNER

We want to thank you and welcome you to view our beautiful home, which we have treasured with many unforgettable memories. This house has been centrally designed on a single level, taking advantage of all the space. The large windows bring natural light throughout the house, and its ergonomic design makes the rooms more spacious, keeping everything within reach.

One of the best features is the fireplace around which we all gather to warm ourselves during the Christmas season.

We love this quiet neighborhood, conveniently located near freeways and toll roads - you can reach the Energy Corridor, Downtown, and The Galleria area in minutes.

For the past four years, we have been busy remodeling and making our home beautiful with many improvements. We know you will add your own special touches to make it your own, and we hope you cherish it as much as we have.

Warm regards,
The Burk Family
