A high acid start-up is required for all Quartzscape surfaces, as well as, the White Mini Pebble and Aqua Cool Mini Pebble specials. There is a standard start-up for white plaster. We accept all forms of payments; cash, check, debit and or credit card. There is a 3% processing fee for all credit card transactions. There is a nonrefundable fee of \$500.00. This amount secures a spot on the schedule and will be applied to the balance. Payments are scheduled as follows; 50% due day of preparation; 45% due day of plaster, and the remaining balance due day of startup.

Since pool plaster is composed of natural materials that have certain inherent characteristics, some amount of shading or color variation is a natural occurrence which should not be construed as a defect and which only enhances the natural beauty of your pool. Homeowner agrees that the plaster is NOT guaranteed for evenness of color and may not be the exact shade

anticipated. The shade and color may vary and fade overtime. The plaster may become streaked, blotchy, or have a mottled appearance over which the contractor has no control.
