# THERMA TRU<sup>®</sup>

## Durable Doorlite Frame DOORS

- No warping
- Can be painted or stained a dark color
- Can be used behind a storm door

**TO REMOVE GLAZING COMPOUND:** Wet with window cleaner or water first. Use razor blade to score glazing along edge of frame. Holding razor blade at 45° angle, scrape glazing from glass. Wipe remaining residue off with window cleaner or mineral spirits.

**FINISH FRAME WITHIN SIX MONTHS OF EXPOSURE.**  
**TO FINISH THE FRAME AROUND GLASS:** Clean first with mild detergent and water or TSP solution. Rinse well and allow to dry.

**PAINT:** Prime first with an alkyd- or acrylic-based primer and allow to dry. Then paint with a high quality, exterior grade, acrylic-latex house paint, OR,

**STAIN AND TOPCOAT:** Use a Therma-Tru Finishing System Kit only. To order a Therma-Tru Finishing System Kit, contact your local Therma-Tru dealer, visit us on the Internet at [www.thermatru.com](http://www.thermatru.com) or call toll free at 1-877-99-STAIN (997-8246). See the Finishing System Instruction brochure or the Corner Door Tag for more detailed application information.

**CAUTION:** Complete curing of the finish over a polymer part generally requires a longer period of time than on other surfaces.

**DECORATIVE GLASS:** Our Therma-Tru artisans have hand-crafted the decorative glass in this door system, and as with any hand-crafted product, no two are alike. Slight irregularities and imperfections should not be considered defects.

**WARRANTY INFORMATION:** This product is covered by a limited warranty. The warranty does not cover defects that are the result of finishing or installation not in accordance with our instructions. For further information contact:
