

Interesting Electrical Details:

Here are some things you may not notice at first, but you will really appreciate once you live at 517 Pine Creek Drive.

- There are 2 electrical outlets in the soffits on the East side of the garage. They are controlled by a toggle switch on the wall in the garage. These are perfect for controlling Christmas lights from inside.
- There are 2 electrical outlets in the soffits on the South side of the living room. They are controlled by a toggle switch on the South wall in the living room. These are perfect for controlling Christmas lights from inside.
- There are outlet wall plates with built in LED mini-lamps in the main hall, kitchen counter, laundry area and garage. The lamps come on when it gets dark and off when it gets light.
- The switch that controls the front porch light and garage outside light can be controlled manually, by Alexa, or by the Kasa app on the cell phone. It is currently set to come on at sunset, off at 11:00 pm, on at 5:00 am off at sunrise.
- The GFI for the circuit which includes the lower outlets outside the front door, the sunroom and the patio facing the park is located under the built-in cabinets in the garage.
