

# Thank You for Showing Our Client's Beautiful Home!

We understand this is a complicated time for you and your clients. In order to protect everyone, please take the following extra precautions **before, during, and after** your appointment.

---

## *Before You Show*

- Please plan to show to no more than two people at a time.
- Please sanitize your hands upon entry. Hand sanitizer is provided for you here.
- For occupied listings, the homeowner or listing agent will turn on all lights and open interior doors to minimize contact with surfaces.
- For vacant listings, please plan to turn on lights and open doors and cabinets with gloves and/or disinfectant wipes.
- It is best to use a wipe to open and close the front door.

## *During Your Showing*

- Please wear a mask/face covering. Gloves and shoe covers, if possible, are also appreciated.
- Minimize contact with surfaces, including light switches, handrails, door knobs, cabinets, and countertops.

## *After Your Showing*

- For vacant listings, please plan to turn off lights and close doors and cabinets with gloves and/or disinfectant wipes.
- Please wipe down or spray with disinfectant any surfaces you have touched. Please either take or dispose of wipes and other items properly.
