

This gorgeous five-bedroom, four and one-half bath home features architectural details, has been completely remodeled with upscale finishes, and has many upgrades! A beautiful front brick and stone entry welcomes you into the dramatic foyer with soaring ceilings and a stunning espresso-stained staircase. The foyer is flanked by wide arched openings to the dining room and library. The epicurean kitchen sparkles with a glass tile backsplash, granite countertops, stainless appliances, a five-burner cooktop, and 42" cabinets. The great room boasts a stone fireplace and custom mantle. The primary suite features a sitting area and a relaxing spa bath. Also, not one, but TWO primary suites downstairs. Upstairs are three bedrooms, two baths, a huge game room (or media room) and a large computer niche. The outdoor retreat features a covered entertainment area and a 36' extended patio wired for sound and TV with gas and dedicated hookups with a 220A connection for a spa! Mega upgrades in this newly renovated "green built" home!
