Subject Property: 9739 Blankenship Drive, Houston, TX 77080

Jericho Foundation Repairs was founded upon a belief that honesty, integrity and hard work would help establish and build a good reputation for our company. We are proud to confirm that after over 25 years of doing business in the greater Houston area and Fort Bend County, people call Jericho because they trust us.

Many times we visit homes that do not warrant foundation repair procedures. Such was the case when I visited the subject property. Elevations were taken and very little sloping or movement was noted at the residence.

It is my professional opinion that foundation repair or underpinning is not necessary at this time. This opinion would not be applicable to future changing conditions, as no accurate prediction can be made of future movement. If the evidence and the consequences of foundation movement become significantly more pronounced, repairs may become necessary. It is always helpful to water your foundation, especially during periods of extreme dryness like we are currently experiencing.

Should you have any questions, please give me a call.

Sincerely,
