

## **Five things we love about our home**

### **Great start to the day**

Quiet morning coffee on our spacious patio enjoying the sights and sounds of birds in our mature backyard with trees

### **No Carpet**

The feel and look of clean hardwood floors throughout the house

### **Clutter free living**

Built-in Cabinets and multitude of closets with shelves - storage is in abundance. In addition to that, we added deck flooring to the garage attic to stow away items

### **Vaulted ceiling in our living room**

Plenty of sunshine from windows

### **Open and super versatile floor plan**

High ceilings with a large study that can be your home office or hobby room
