

A note from the seller..

Thank you for taking the time to view our home. We hope you enjoy your visit to the place where we began our lives together as husband and wife. This has been an amazing place to call our first home and to experience life together. We loved our home at first sight and during our time here, our lives have changed in the best of ways.

We have enjoyed many afternoons in the backyard, reveling in the beautiful greenery- most of the plants started as small, indoor houseplants that outgrew their pots. The outdoor fireplace and string lights create a cozy atmosphere that's perfect for entertaining. It's a breeze to get to local restaurants and bars- we love taking the short stroll to Molina's to get yummy margaritas or Paulie's for a cold sandwich on a hot day. The neighborhood is welcoming, family friendly, and safe. We will miss long walks with our dog, enjoying the beautiful homes canopied with oak trees and children playing in the front yard. Our home is also a ten minute commute to the Texas Medical Center and has easy access to major roads- an absolute must for Houston's hustle and bustle!

While we are sad to leave this home that has been such a place of joy for us, we are excited to transition into a new chapter of life as we relocate for work outside of Houston.

We hope the next owners of this house will enjoy the same warmth and convenience it has brought us. The fantastic location, wonderful neighbors, and cottage charm make this property exceptional. We are certain you will fall in love with 3836 Bellefontaine, just like we did.
