18x50x14 RV storage has 30 Amp service with room to open all slide outs.
Workshop has Air-condition and large exhaust fan.
Secluded back deck.
Low tax rate with no Mud taxes

Super low energy bill is important. We live at 68 at night but with the LED fixtures, insulation, solar screens, double pane windows and programmable thermostats we keep it low. Again Sub \$250 and that's the high side.

Kitchen under and over cabinet lighting.

Plugs above upper shelves in the living room and master bathroom.

Original redone Mantle from home in Galveston during the great flood of 1900. \$5,000 value.

Direct vent fireplace that remote control can be added.

Whole house sound system ties into one central location in the master bedroom.

Plugs around the entire house in the eaves for Christmas lights hooked to a single switch in the foyer for ease.

For all plugs if the plug is upside down there is a light switch.

Fixture above the electric cooktop came from New Orleans.

Electric cooktop is plumbed for gas and electric.

\$15,000 wrought iron and oak custom staircase.

Additional wood and ceramic flooring, tile, wrought iron, and trim etc. is in the attic should it ever be needed.

Custom built by the owner / builder.

Over engineered slab with piers set every 8 feet.

Auto light switches in every closet

2.96 acres

Furnace, water heater, and fireplace. All propane. Tank is leased.
