PERRY HOMES™

This Executive Class home contains over 3,900 square feet and includes five bedrooms and three and a half baths.

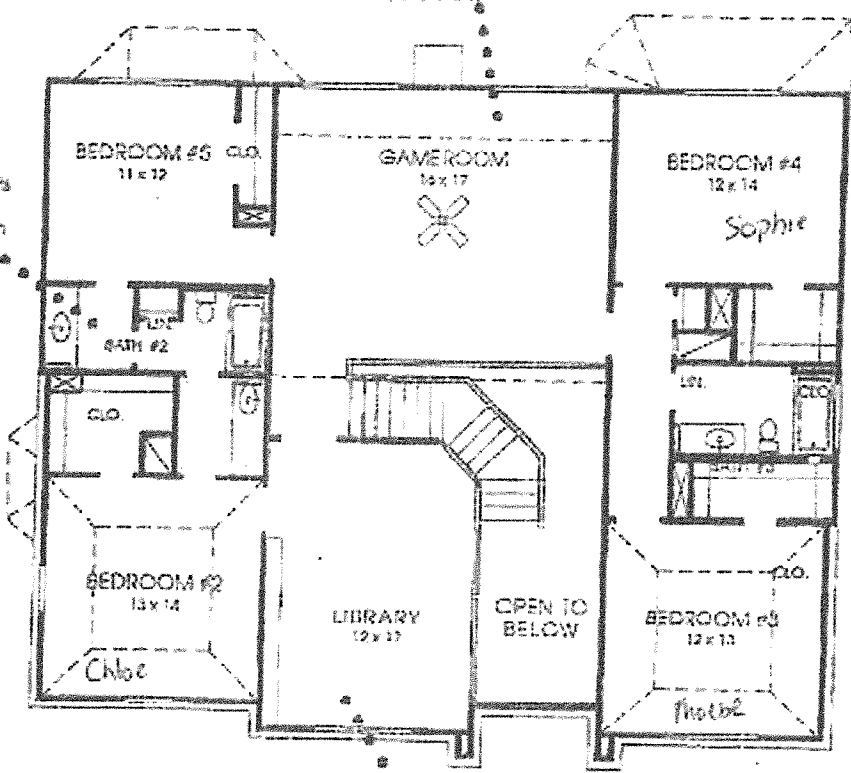

Bath rooms are set at the front of the design for entertaining

PLAN 3992

An upstairs game room offers a separate children's play area.

A full bath with separate vanities is conveniently accessible to both secondary bedrooms.

An upstairs library with built-in bookshelves is a perfect at-home office.

This floor plan is based on the standard specifications, materials, and finishes shown. All dimensions are approximate and subject to change without notice. All other personal property being used in the plan is for illustrative purposes only.
