

About The Builder

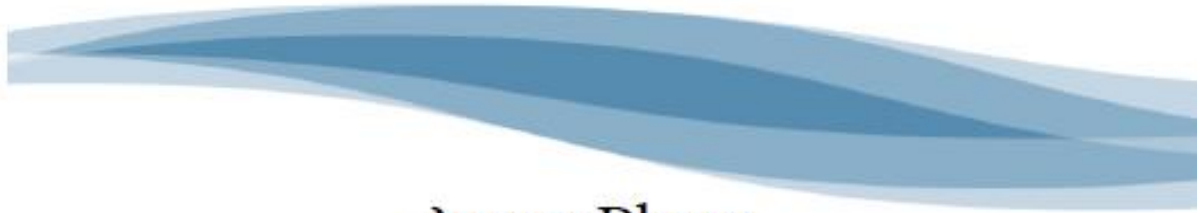

J.G. Hollins Builders

J.G. Hollins Builders has been dedicated to constructing fine homes for over 25 years with trust, integrity, and quality. Investing in Houston through dozens of developments. Acres Place is just the most recent development in a long history of building.

One of the goals of the J.G. Hollins company is a true philanthropy that seeks to inspire not just the JG Hollins team, but others to take part in renewing communities like Acres Homes.

Owner, Johnny Hollins says "My passion is affordable housing and helping people get into homes they ordinarily would not be able to buy," says Johnny. "We're bringing in a nice, quality-built product with a lot of land, which is rare."

JG Hollins does more than build, they participate in local training to teach people lifelong skills in the construction industry. Mr. Hollins also serves on the Board of Directors of several organizations, including the Greater Houston Builders Association (GHBA), the National Association of Minority Contractors (NAMC), and the Acres Homes Chamber for Business and Economic Development.
