RE: National Flood Insurance Program (NFIP) property paid loss history

Property Location: 2303 Briarpark Drive, Houston, TX 77042

Dear Lindsey Doyle,

You contacted the NFIP Help Center requesting the paid flood loss history for the property address referenced above. You state that you are a current owner of the property.

A search of the records of the NFIP indicates the following paid flood losses were reported to FEMA for the property location of 2303 Briarpark Drive, Houston, TX 77042:

Date of Loss: 04/28/2009      Building Paid: \$51,332.20      Contents Paid: \$5,096.19

Date of Loss: 10/28/2002      Building Paid: \$1,089.27      Contents Paid: \$0.00

Only closed flood losses paid under an NFIP flood insurance policy are reported. Flood insurance policy and claim data is submitted by the many insurance companies who write flood by arrangement with FEMA under the Write Your Own (WYO) program or by the NFIP Direct Servicing Agent. Searches are based on property location, regardless of ownership. An address search may fail to reveal policy information or claim data if there is a difference in the entry or reporting of the address.

The FEMA web site has many resources for all audiences interested in the NFIP. Please see <http://www.fema.gov/business/nfip/> and [www.FLOODSMART.gov](http://www.FLOODSMART.gov). If you have additional questions, please contact us at 1-866-395-7496.

Sincerely,

NFIP Help Center
