GREEN BUTTON **DOWNLOAD**

If you experienced a power disruption, the usage displayed may be estimated for the times you were without power due to the inability to receive data from your advanced meter. Usage data will be corrected with actual reads within a few days. Please be assured you will only be billed for actual usage once that data becomes available. We apologize for any confusion or inconvenience this may cause. Additionally, we are working on a video to help you learn how to better use this tool which is now available due to our investment in advanced meters. Please click [here](#) for further usage view explanation.

Green Button Download allows you to download your consumption in a user-friendly format. This may help you to manage your usage and make better-informed energy decisions that may save you money.

To see how temperature affected your current bill, go to [My Bill Analyzer](#)

*This is not your actual bill, rather a tool to help you better understand your energy usage/costs and when they are incurred. Monthly views are based on calendar months verses your bill cycle. The costs are based on your actual usage and the cost at the time. These costs do not include any un-metered charges such as leased lighting, sales tax, franchise fees, past-due balance or associated fees. If you are on Budget or Levelized Billing, this only applies to the current month's bill. For your actual bill go to [My Bill History](#).

Choose the date range and format you want to download data:

Date range available is based on the meter you are currently viewing in the usage/cost chart. To select a different meter or time increment, please exit the pop-up window.

* Natural Gas in CCF, Oil & Propane in Gallons.

Please note: the table above is a mixture of calculations and estimates of large energy uses in your home based upon your home profile. The columns will therefore not add up to the totals to the right.

Natural Gas Difference from Last Month

Use Summary:

The Jul 29, 2021 bill usage was about 1 CCF lower than the Jun 29, 2021 bill period. 1 CCF

Cost Summary:

The Jul 29, 2021 bill costs were about \$1 lower than the Jun 29, 2021 bill period. \$1

Other Impact:

There is a \$1 decrease in your Jul 29, 2021 bill compared to your Jun 29, 2021 bill. This change is likely a result of behavioral changes in your home like adjusting your thermostat, using appliances less, spending less time at home, or fewer people in your home. \$1

Natural Gas Difference from Last Year

Use Summary:

The Jul 29, 2021 bill usage was about 2 CCF lower than the Jul 29, 2020 bill period. 2 CCF

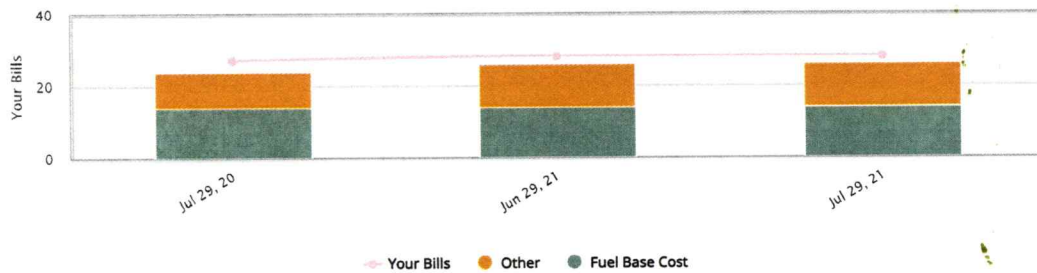

Cost Summary:

The Jul 29, 2021 bill costs were about \$1 higher than the Jul 29, 2020 bill period. \$1

Days in Cycle Impact:

There was 1 more day in the Jul 29, 2021 bill than the Jul 29, 2020 bill. The more days caused you bill to be higer by \$1. \$1
