## Trash Removal 101

We all know what to do with regular trash but what happens when you have big or odd items that don't fit into your trash can? You can have larger items hauled away by putting them out near the curb at the end of the driveway on San Sebastian nearest the pool house. (Look for the "large trash here" sign close to the ground) A few rules to keep in mind:

- Large trash pick-up is Monday morning of each week
- Wait until at least 6pm on Sunday to put the items out (be considerate of the neighbors who have to look at the trash)
- Put out large trash ONLY near the sign at the end of the driveway near the pool house
- DO NOT put out building materials including boards, old toilets, drywall, sinks, or any type of remodeling/construction debris
- DO NOT put out paint or other chemicals
- DO NOT put out old tires
- If you're not sure if it's okay to put an item out, call Ameriwaste or the City of Nassau Bay to ask before you leave the item on the curb

Recently residents have put out items including paint and old toilets which had to be removed by an independent hauling company – paid for by your dues. Let's be smart and considerate when it comes to trash!
