Re: Water Service to the 122.552 acre tract on Kennings Road

To Whom It May Concern:

The Crosby Municipal Utility District cannot at this date supply water service to the above referred to tract of land.

The owners of said property may provide for their own water service.

Since the property is located within the District, all owners will be required to connect to the District's water service upon service being available.

Sincerely,

Crosby Municipal Utility District

Robert Fivecoat
President, Board of Directors
