

Note: The "street right of ways" within Heritage Grand are owned by the Association and shown on this map in light gray. The "street right of way" is 50 ft. In general, however, the actual concrete (curb to curb distance) is 30 ft. which means that 10 ft on each side of the street is also Association property. Each homeowner has an area of grass in this Association "right of way" and each homeowner is responsible for the maintenance of this 10 ft strip.
