530 sf garage

307 sf porches

These designs remain the property of BCS Design That Work, LLC. Upon payment of design fees, license will be granted to the party making payment to build one structure from these plans. Resale, reproduction or tracing for reuse without said license or written consent of designer is prohibited. Builder/Owner shall check and verify all dimensions, and be responsible for same, prior to construction. These designs conform to most International Residential Building Codes. Builder/Owner shall notify designer of any local codes, requirements or building location conditions that require variances from International Residential Building Codes. Designer's liability for any claims or damages not to exceed fee paid for plans.

All construction to comply with IBC/IRC current edition(s) as well as all City, County and/or State adopted revisions, modifications, additions and deletions. Builder of record is responsible for ensuring all materials, methods and construction meets said requirements. Structural design is by others. Details, notes, sections etc. are intended to aid in the construction and serve as a guide but may not include all necessary information. It is recommended that a complete set of plans and all related construction documents be kept on site for reference as needed. All materials and equipment shall be installed in accordance with code requirements and manufacturer's instructions. Builder is responsible for locating the structure on the site as well as setting the elevation of the foundation and ensuring proper drainage as required by the L.A.H.J. Site specific design requirements, i.e. natural grades, swales, drainage, etc. are the responsibility of the Builder.
