

Special Features

Fairview Avenue

- Spray foam Insulate and seal your home from air leaks. Insulating and air sealing your home will keep conditioned air from leaking to the outside, which can help lower your energy bills by 5% to 30% per year.
- TPO flat roof – Thermoplastic Polyolefin is a commercial roofing system.
- Carton Forms – Construction materials that create space between concrete structures and expansive soils, thereby isolating the concrete from swelling ground.
- ZIP System – Sheathing and tape streamlines the weatherization process with an integrated air and water resistive barrier that delivers moisture and air protection in one system.
- Western Windows – High end windows that deliver energy efficiency, strength against the elements and elegant design.
- Sound Barrier – Each floor constructed with sound absorbing materials to help reduce 80% of noise.
- Epoxy Finish Garage Flooring – Thermosetting resin applied as a coating for a more durable, stain resistant flooring.
- European Look Cabinets – A modular, frameless and use hidden hinges to maximize storage space in kitchen and bathrooms.
- Floating Vanities – Bathrooms finished with sleek and modern floating vanities added storage.
- Quartz Counter Tops – All bathrooms and Kitchen counters furnished with Quartz high end surface.
- High-End Kitchenaid kitchen appliances lead to great inspiration.
- Hydraulic Elevator – Residential elevator operates with a hydraulic pump connected to a cylinder that will rise and lower for a smooth and quiet ride.
- Fire Sprinkler System – While concealed fire sprinkler heads have the advantage of being aesthetically pleasing and classified as fast response.
- Solid Wood Doors – Oversized 5 panel doors.
- White Oak Wood Flooring – Stylish and timeless with rich grain and light tone naturally accept a variety of textures.
- Outdoor Kitchen – Stunning rooftop terrace kitchen with grill, refrigerator, sink, storage and quartz counter top to enjoy alfresco dining.
- Porcelain Tile – Bathrooms and floors with modern and classic porcelain tile.
- Control4 Home Automation – A smart home operating system connects virtually all of the technology in the home.
- Frameless shower Doors – Elegant and easy to clean frameless shower doors with shower guard.
- Solid Wood Trims – Solid wood trim and baseboard bring an organic natural feel to home.
- Tankless Water Heater – Energy saving, Efficiency, environmentally friendly and lifespan.
- Insulated Garage Door – Insulated door with key pad will help keep temperatures in the garage fairly stable to reduce the fluctuation.
- Energy Star Air Conditioning – Two 16 Seer Energy Star Air Conditioning units.

- Solid Wood Trims – Solid wood trim and baseboard bring an organic natural feel to home.
- Tankless Water Heater – Energy saving, Efficiency, environmentally friendly and lifespan.
- Insulated Garage Door – Insulated door with key pad will help keep temperatures in the garage fairly stable to reduce the fluctuation.
- Energy Star Air Conditioning – Two 16 Seer Energy Star Air Conditioning units.

Special Features

Fairview Avenue

- Spray foam Insulate and seal your home from air leaks. Insulating and air sealing your home will keep conditioned air from leaking to the outside, which can help lower your energy bills by 5% to 30% per year.
- TPO flat roof – Thermoplastic Polyolefin is a commercial roofing system.
- Carton Forms – Construction materials that create space between concrete structures and expansive soils, thereby isolating the concrete from swelling ground.
- ZIP System – Sheathing and tape streamlines the weatherization process with an integrated air and water resistive barrier that delivers moisture and air protection in one system.
- Western Windows – High end windows that deliver energy efficiency, strength against the elements and elegant design.
- Sound Barrier – Each floor constructed with sound absorbing materials to help reduce 80% of noise.
- Epoxy Finish Garage Flooring – Thermosetting resin applied as a coating for a more durable, stain resistant flooring.
- European Look Cabinets – A modular, frameless and use hidden hinges to maximize storage space in kitchen and bathrooms.
- Floating Vanities – Bathrooms finished with sleek and modern floating vanities added storage.
- Quartz Counter Tops – All bathrooms and Kitchen counters furnished with Quartz high end surface.
- High-End Kitchenaid kitchen appliances lead to great inspiration.
- Hydraulic Elevator – Residential elevator operates with a hydraulic pump connected to a cylinder that will rise and lower for a smooth and quiet ride.
- Fire Sprinkler System – While concealed fire sprinkler heads have the advantage of being aesthetically pleasing and classified as fast response.
- Solid Wood Doors – Oversized 5 panel doors.
- White Oak Wood Flooring – Stylish and timeless with rich grain and light tone naturally accept a variety of textures.
- Outdoor Kitchen – Stunning rooftop terrace kitchen with grill, refrigerator, sink, storage and quartz counter top to enjoy alfresco dining.
- Porcelain Tile – Bathrooms and floors with modern and classic porcelain tile.
- Control4 Home Automation – A smart home operating system connects virtually all of the technology in the home.
- Frameless shower Doors – Elegant and easy to clean frameless shower doors with shower guard.
- Solid Wood Trims – Solid wood trim and baseboard bring an organic natural feel to home.
