If the answer to any of the items in Section 2 is Yes, explain (attach additional sheets if necessary):

Floors – Floors have had water leaks during SNOVID. There are some tiles that are not adhered and the living room floor and the family room as well as the laundry room flooring have issues.

Foundation / Slab(s) – Seller had foundation repaired 10 years ago but does not recall the name of the foundation company who came out and did the repairs. Seller brought another foundation expert to assess the foundation in Jan. 2022 and was informed there are no foundation issues around the house but there appears to be some issues in the garage area at the side facing the street. The approximate price to repair was quoted around \$5,500. Report and estimate are available.

Walls / Fences – Some issues with the fence.

Doors – The french doors upstairs do not close and neither the french doors in the formal living room. Also the side door to the house needs to be adjusted.

Interior Walls – Damage from SNOVID/Leak.

Windows – Original windows. Most likely have issues.

Driveways – Few cracks.

Lighting Fixtures – Electricity is turned off. Not sure if there are issues with the lighting fixtures.

Other Structural Components – The house owner is an elderly, 87 year old lady who has some memory problems. The house is being sold "As Is". Seller does not know the answer to most of these questions due to memory problems. Bujyer to assume there are many issues with this house. Again, house is sold As Is.

Electrical Systems – The house owner is an elderly, 87 year old lady who has some memory problems. The house is being sold "As Is". Seller does not know the answer to most of these questions due to memory problems.

^{*}A single blockable main drain may cause a suction entrapment hazard for an individual.

^{*}For purposes of this notice:

[&]quot;100-year floodplain" means any area of land that: (A) is identified on the flood insurance rate map as a special flood hazard area, which is designated as Zone A, V, A99, AE, AO, AH, VE, or AR on the map; (B) has a one percent annual chance of flooding, which is considered to be a high risk of flooding; and (C) may include a regulatory floodway, flood pool, or reservoir.

[&]quot;500-year floodplain" means any area of land that: (A) is identified on the flood insurance rate map as a moderate flood hazard area, which is designated on the map as Zone X (shaded); and (B) has a two-tenths of one percent annual chance of flooding, which is considered to be a moderate risk of flooding.

"Flood pool" means the area adjacent to a reservoir that lies above the normal maximum operating level of the reservoir and that is subject to controlled inundation under the management of the United States Army Corps of Engineers.

"Flood insurance rate map" means the most recent flood hazard map published by the Federal Emergency Management Agency under the National Flood Insurance Act of 1968 (42 U.S.C. Section 4001 et seq.).

"Floodway" means an area that is identified on the flood insurance rate map as a regulatory floodway, which includes the channel of a river or other watercourse and the adjacent land areas that must be reserved for the discharge of a base flood, also referred to as a 100-year flood, without cumulatively increasing the water surface elevation more than a designated height.

"Reservoir" means a water impoundment project operated by the United States Army Corps of Engineers that is intended to retain water or delay the runoff of water in a designated surface area of land.
