

8014 Green Devon Dr. Houston Tx 77095

Things We LOVE about our Home

- ♥ When driving up to the home has a great curb appeal that makes you feel at home
- ♥ Plenty of space to entertain for parties and get together with ample seating for sitting to eat in kitchen and dining room
- ♥ Large living room that draws you into the accent wall and feels very cozy,
- ♥ Enormous master bedroom and bathroom with his and hers closets plus the 7 jet shower is amazing after a long day at work
- ♥ Large upstairs rooms and game area which is great for having multiple groups of people upstairs and downstairs
- ♥ We turned one of the bedrooms into an office with bookshelves that stay with the house, great for the work at home era
- ♥ Bonus room upstairs is great to store any of those things you don't know what to do with but want them in a climate area, would also be a great theatre room
- ♥ Great home if you are a Christmas lover we put three trees up and plenty of room to have different themes
- ♥ Close to neighborhood park and walking trails along the bayou
- ♥ Having a detached garage with the built in shelves and workbench is a major plus for anyone who has ample outdoor equipment and tools
- ♥ The house can be suited for two people like it was for us but also can fit a family of five which makes it a great house to grow
