Inspection Result:

A comprehensive roof inspection was performed by our roof technicians and and concluded that the overall condition of the roof is serviceable. Minor deficiencies have been corrected and routine maintenance performed. We recommend annual inspections to ensure proper function. With regular maintenance we estimate the current roofing system to have several years of service remaining.

Warranty:

Roof Reseals, repairs, and/or maintenance performed by Shield Roofing is covered by a 1 year warranty for workmanship and material defects only. Shield Roofing will attempt to match the existing shingles color to the best of our ability, but due to age, wear, die lot numbers and product production life spans, Shield Roofing may not be able match existing shingle color.
